

process ,assessment and examination. One of the aspects of this pandemic has been the resurgence of e-learning. It has opened the floodgates for the development of e-learning, teaching learning process and to create a robust education system.

The Webinar holds the vision of understanding the dynamics of impact of Pandemic COVID 19 on higher education and e-learning. It has led to skill development in the field of education and hopefully the changes leads to the development of the education system of India. We the faculty members and Principal invite all the participants to come together on a platform through this webinar to discuss the various aspects of the impact of COVID - 19 pandemic on higher education and e-learning.
